Re: Uniform Securitization

I, Gary-David of the family Chenot, Executor, hereinafter referred to as Affiant, does hereby certify and declare under penalty of perjury on, and for the public record, that Affiant is of the age of majority, of sound mind and competent to testify and that the following facts are true, and correct to the best of the Affiants personal knowledge, understanding and belief.

**INTRODUCTION.** There was a time when the joyous event of childbirth was recorded in the family Bible to signify the child's status as a member of the family's posterity with implied rights of an heir. To this day, the family Bible remains a lawful record that is recognized in the "legal" system. In 1933, when most privately-held gold was confiscated by the Federal Reserve System under Executive Order 6102 and obligations payable in gold were outlawed under H.J.R. 192 (Public Law 73-10), the substance-backed economy was replaced by a financial system based upon credit (IOU's) which is currently failing under the weight of its own nature. What is that nature? Like "Seinfeld," very simply, nothing. Empty promises to pay, backed by fraudulent presumptions of informed consent. It's an economy where the books always add up to zero, where the very nature of bookkeeping had to be altered to disguise the void (double-entry bookkeeping), where the notion of a single entry to explain your purchase of a pack of gum was apparently inadequate to hide the theft of your money, where every asset is also entered as an offsetting liability, where the law itself had to be replaced by commercial hypocrisy, where the sum total of all activity in every government licensed institution, bank, Court and corporation equals zero each and every day, where transactions which once involved the exchange of goods and services of equal value now involve the exchange of "securities" of equal "value" (nothing) as the term "value" is defined in inferior statutory "law." Like "Seinfeld," the world suffers not so much an economy, as a comedy of errors. Perhaps more correctly, a comedy of frauds wherein the concept of "value" is established by words on the page instead of the perceived value of goods, services and labor at hand; where up is down, black is white, and timeless immorality is perfectly "legal." It is a well established fact that the United States is defined as a corporation in Title 28 Section 3002(a) of the Judiciary Code. Meaning that the United States judiciary operates under the global presumption that the United States is a corporation, notwithstanding periodic attempts by learned attorneys-at-law to treat this fact casually. What is a corporation? In essence: nothing. A construction of words on pieces of paper. A contrivance without a soul, sentience or conscience. The question becomes, how does an unconscious paper corporation operating in an economy without substance control the population of living people under the original public trust charter? The answer is self-evident. Organized commercial fraud which applies ancient edifices of commercial sleight-of-hand such as legal fictions, certification, registration and securitization to achieve outcomes which would otherwise be impossible (and certainly repugnant to the Founders). Translation: the machines harness the people's commercial energy through a Matrix of scripted distractions and diversions wherein fraud, falsehood and fallacy supplant the law until amnesia has become endemic. That system is known as the "legal" system, a profit-inspired veneer for THE universal system of voodoo accounting explained in this article: the Uniform Securitization Scheme which runs invisibly as the operational schematic that underlies all public events be it the birth of a baby, the issuance of currency, economic "bailouts," a Court case, a purchase, a loan, a mortgage or a real estate transaction. Without your awareness, virtually every event of your life which involves a public institution has been covertly superimposed on the underlying Uniform Securitization Scheme ("USS") revealed in this affidavit so that the actual events are invisible. The USS is the EXACT SAME PROCESS used by banks to PLEDGE your credit card and loan applications as the surety for certificates and notes issued by their subsidiaries and sold to investors. Patriot mythology has held that these loan applications are actually securities. As will be revealed, in this instance the legend is true. The evidence is contained in every Rule 424(b)(5) prospectus filed by every bank with the SEC. A Bank of America flowchart published in a 2010 SEC prospectus is included in Appendix B to graphically demonstrate the universality of the USS. This chilling roadmap to the Uniform Securitization Scam may be helpful to review as you read about the pledges, certification, re-deposit and various techniques that comprise the USS. To understand the Uniform Securities Scheme is to

understand the commercial world around you, and the banks, government agencies and Courts that seek to control our life.

**THE UNIFORM SECURITIZATION SCAM** The fuel behind the United States Federal corporation, the underlying premise behind every transaction in which you have participated, is the presumption that your labor has been voluntarily pledged to pay the debts of the United States (the public debt). Is this presumption factual or the wild concoction of misguided conspiracy theorists? Is it even remotely possible that the Founders' descendants are captured as sureties for the escapades of their public officials?

The answer will soon be clear. It will be found by exploring a series of legal maneuvers known as "legalization," registration, certification, securitization, and general deposit which comprise the essence of the Uniform Securitization Scheme ("USS"). That same scheme is used at every stage of the Matrix, from the construction of the birth account to the reverse mortgage you sign on your death bed. To understand the birth certificate scam, is to understand loans, mortgages, purchases, deeds and all the other mirror-image substitutions for good old fashioned truth.

**II THE PLEDGE OF FUTURE PERFORMANCE; SECURITY FUTURES** Almost immediately, the blessed event of the delivery of an infant is marred by using its right foot to make an impression on a hospital birth record (HBR). The HBR provides public testimony of the baby's "birth" on the continent and status as an "owner" of the United States. Contrary to popular opinion, ownership is not control. In the "legal" system, ownership is defined as a pledge to act as surety for the debts incurred by the property. In the case of the United States, that doctrine is enshrined in Article VI of the Constitution which says: "All Debts contracted and Engagements entered into, before the Adoption of this Constitution, shall be as valid against the United States under this Constitution, as under the Confederation." In other words, the act of registering the child with the United States Federal Corporation through a government-licensed hospital comprises THE OWNER'S PLEDGE OF FUTURE LABOR, the "full faith and credit" that underwrites all U.S. currency and public debt under the ancient doctrine that ownership equals liability. After all, who else but the owners would be motivated to pay the bills? For the sake of skeptical friends and family, here are the sound bites: Who else but the people of the United States stand behind U.S. currency? Does the issuance of a U.S. hospital birth record signify one's responsibility to pay taxes and underwrite the public debt?

**III OPENING AN ACCOUNT** The HBR is delivered to the incorporated County for the purpose of transmitting the infant's pledge into the "legal" system. What happens when you transfer property? What must you do when you make a purchase on the internet? What's the first step in creating a commercial relationship with your doctor, bank and phone company? They open an account in your name. As with any asset, the incorporate County as the receiving institution must open an account and log it in. The County Registrar opens an account in the County's books. As you will discover, the sole purpose of every account that has ever been opened in your name is to leverage (issue) future securities. You are unaware of this because you are unaware of the definition of securities. Opening an account is a boilerplate event in the Uniform Securitization Scam when any bank, Court, corporation or government institution seeks to assess the owner with a portion of the public debt and tap into your Estate to pay the assessment.

**IV**

**REDUCING STATUS TO A NUMBER** As with any account, the County birth account is assigned a number, typically in the format: 123-45-654321. The first number group identifies the corporate State, the second group identifies the year of delivery, and the third group identifies the transaction. This birth identification number will follow the infant throughout his life. The implications are well documented in Scripture. "*And Satan stood up against Israel, and provoked David to number Israel* (1 Chronicles 21:1)." You may wish to read about the consequences of that event to the people of Israel. When we participate in a census for purposes other than to glorify the Lord, we can expect to be condemned.

**V RECORDING A GENERAL DEPOSIT; RELINQUISHING TITLE** The registrar then records the HBR in the account as a general deposit, meaning the State takes title to the funds (your future labor/commercial energy) the same way a bank takes title to your deposits when you use the bank's endorsement stamp to print "PAY TO THE ORDER OF ACME BANK" on the back of a check before depositing it in "your" account. Haven't you ever wondered why checks are made payable to the bank instead of to your account? The PAY TO THE ORDER OF notation is not just a material alteration under the Uniform Commercial Code. It creates a brand new security wherein the bank takes your funds for its own purposes and disguises the acquisition by issuing credits to your account. This one act is the mechanism by which the State steals the infant's Divine right to her own labor and converts it into a numbered account to act as surety for its portion of the public debt owed to the banking cartels under the Constitution.

The United States now holds the pledge of the minor child's future labor deposited "voluntarily" by the child's mother as the foundation for all the future securities it will attempt to issue in your name. The HBR is then placed into a vault at City Hall or the County Seat or a subsidiary such as Vital Records. Those who are skeptical might wish to examine their own birth certificates alongside a stock or bond certificate and read the definition of securities in Section 78c of Title 15 of United States Code (subparagraph (a)(10)). The internet provides immediate access: [http://uscode.regstoday.com/15USC\\_CHAPTER2B.aspx#15USC78c](http://uscode.regstoday.com/15USC_CHAPTER2B.aspx#15USC78c)

**VI** **LEGALIZATION OF YOUR PUBLIC ESTATE** Your estate here on earth consists of your inheritance from the Creator: your body, the air you breathe, your possessions, the fruits of your labor. However, as with your name, banks, churches, money, law and courts of record, U.S. Inc. intends to create a fictional mirror-image counterpart of your estate in the public venue. This process is known as "legalization."

Depositing your presumed security future pledge into a public account for the creation of securities "legalizes" your labor into a public estate ("Estate"), a vast account which holds the pledge of your future labor (an IOU) to act as surety for your portion of the public debt. Every time your "LEGAL PERSON" e.g. ALL CAPITAL NAME - JOHN HENRY DOE, is "charged," the government is seeking to tap into your Estate to pay the assessment. Your Estate is merely a trust which has been designated as insurance to underwrite the public debt and create profits and proceeds for public officials who seek to convert you from a member of the posterity they are sworn to serve, into a subject that exists to provide them with commercial energy and position.

## VII

**CERTIFICATION** The Registrar certifies the deposit of the pledge by issuing a Certificate of Live Birth or Certificate of Birth (so-called long form) which identifies the child, the parents, the date of birth, and the date of certification. This one act legalizes the pledge by converting the presumption of pledged labor into a security. Section 8-102(a)(4) of the Uniform Commercial Code defines a "Certificated Security" as "a security that is represented by a certificate." By issuing the Certificate, the Registrar is confessing that the hospital birth record is a certificated security, and the County is the depository institution which has taken title to the "funds." Certification is the same process used by banks to launder your credit application into an "asset" to be sold to investors. The BOA flowchart in Appendix B provides a graphic confession of the certification scam. Notice that the BA Master Credit Card Trust II is the certificating subsidiary that certifies your credit card application. What is a credit application? A pledge. It's your pledge (security future) to pay the line-of- credit that the bank "creates" when they approve your credit application. Regarding general deposit and certification, the County and Bank of America are birds of a feather. Both seek to interpret your signature as a pledge of future performance, a security future. The act of certificating the hospital birth record legalizes the infant's pledge as a security future "asset" for posting as tangible funds in various public accounts as you will see. This is the scheme by which the obligation to perform is transferred from public officials who are sworn to act as trustees of the public trust, to the hapless "legal" Citizen "LEGAL PERSON" created (as you will see later) to act as a substitute trustee through the process of "legalizing" the infant's pledge into the public venue.

## VIII

**RE-DEPOSIT** The Secretary of the Treasury is notified of the pledge via the transmission of a certified copy of the pledge certificate or electronic record of the County deposit, thereby beginning the Uniform Securitization Scam (create an account, make a general deposit, certificate the "asset," issue derivative securities as if they're tax exempt original issues) once again. The Secretary' delegates open an account identified by the previously assigned birth certificate number for the sole purpose of leveraging (issuing) securities against your Estate. The infant's pledge represented by the Certificate of Live Birth is deposited, again generally, providing the "funds" against which future securities will be issued. THIS IS HOW THE CORPORATION TAPS INTO THE ESTATE TO UNDERWRITE EVERY SECURITY THAT IT ISSUES, every indictment, citation, bill, bond, charging instrument, complaint, summons, arrest warrant, promissory note, assessment and mortgage. THIS IS WHY THE GURUS HAVE SAID EVERYTHING IS PREPAID. Under the Uniform Commercial Code (UCC), the term "for value" is defined as a pre-paid account. The birth account at Treasury is the prepaid account against which all such assessments, and your setoffs and acceptances "for value" will be drawn. The pre-payment is the long form Certificate of Live Birth representing the security future pledge of future labor. This is the account that supplies the funds when you mark a bill "charge the same to JOHN HENRY DOE 123-45-6789." This is the elusive

“Treasury account” prosecutors love to ridicule when prosecuting a sovereign/patriot. For many, this may be the first time you have understood what you’ve been writing in your acceptances.

## IX

### CREATION OF A TRUST

When property is transferred, a trust relationship is created. The recipient has an obligation to perform in some fashion such as processing an instrument, protecting the property or delivering a bill. The recipient is therefore a trustee. Section 401 of the Uniform Trust Code confirms that a trust is created upon transfer of property.

#### SECTION 401. METHODS OF CREATING TRUST.

A trust may be created by: (1) transfer of property to another person as trustee... As with any conveyance of property, the deposit of the pledge creates a trust in which the recipient has a trustee obligation to process the instrument. This is the so-called Birth Certificate trust. It is not the result of some bureaucrat recording a trust, but the natural consequence of a transfer. The birth trust is identified by the original birth number assigned by the County/State registrar. As you will see, this number represents a variety of accounts, trusts, securities and certificates all derived from the original pledge.

**X RE-ISSUE OF SECONDARY SECURITIES; THE BIRTH BOND** The first security issued from the Treasury account is the birth bond which the United States uses to underwrite its currency. Like the pledge, the birth bond is a certificated book-entry security future, a bet against your future performance, which is re-presented (noticed) into the public by a certificate: the short form Birth Certificate. Like any bond, the birth bond is nothing more than evidence of debt; evidence that the Estate (your labor) is the surety for the infant’s portion of the public debt. As you may suspect, the purpose of the birth bond is to leverage more securities using the USS template described in this article. The profiteering begins when the birth bond is traded dollar for dollar for money (notes) issued by the Federal Reserve, permitting Treasury to place the money into circulation under the premise that it is backed by the people’s “full faith and credit.” The bond is transmitted by the Fed to The Depository Trust Company where it is placed into “safe keeping” for the purpose of re-issuing a vast array of derivative securities, each one written against the pledge and designed to elicit your consent for profiteering.

**XI REGISTRATION** One of the most seemingly benign cogs in the Uniform Securitization Scam, registration, is the process by which a creditor registers a security interest against the owner. Registration is a pernicious method used to take control of “legalized” property by a genuine or presumed secured party under protection of the “legal” franchise and its incorporated judiciary. Here are some excerpts from the twelve paragraph operational arrangements published by The Depository Trust Company (“DTC”) to govern DTC Direct and Indirect Participants: 1. The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the securities (the “Securities”). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. 3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC’s records. The ownership interest of each actual purchaser of each Security (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. There it is in black and white. The birth bond is “registered” to the benefit of DTC. DTC will not even mention the “Beneficial Owner”—the beneficiary—in its records. By combining the terms “beneficiary” (the sole party with the right to enjoy the fruits of the security) with “owner” (the party that’s liable for all of the debts and injuries caused by the security), you have been reduced to the lowest common denominator: an owner. Forget the adjective “Beneficial,” you don’t matter at all. Your only right is to order the sale of the security to the next hapless owner. If this is hard to accept, ask yourself who suffers when the value of a stock certificate registered to DTC suddenly falls. The owner. Who pays the margin? The owner. Who sells at a loss? The owner. Who makes a profit on the sale by having locked in its position as holder of the security? The Depository Trust Company of course. Conversely, as stated by DTC, the Direct Participant (the financial institution that made the deposit, in this case, the Fed) will be credited with the value of the security. This means that DTC will post the birth bond on its books as a credit to the Direct Participant, not you, allowing the Direct Participant to enjoy the increase in net worth, to borrow against the value, to post between 3 and 10 percent of the bond’s value to the Direct Participant’s reserves thereby allowing the Direct Participant to lend out at least nine times the value of the securities using YOUR pledge as the source of credit. So while your Estate pays all of the bills assessed against the legal person, the Fed enjoys the value of your pledge. IT IS THROUGH THE BOOK-ENTRIES DESCRIBED IN

THIS ARTICLE, IN PARTICULAR THE POSTING OF VALUE IN THE RESERVE ACCOUNTS OF FEDERAL RESERVE BANKS, THAT THE PUBLIC TAPS INTO YOUR ESTATE WITHOUT YOUR KNOWLEDGE. In other words, if a Court wishes to assess your Estate, it deposits the indictment security into an account opened in the name of your legal person, and charges the Estate by issuing an arrest warrant security to bring you in for the purpose of consenting to the assessment. Meanwhile, it is trading against the reserve posting by issuing and trading a Case Bond issued from the same account.

## **XII RE-ISSUE OF SECONDARY SECURITIES; THE SOCIAL SECURITY BOND**

The next security issued by Treasury against the pledge is the master Social Security bond. The purpose of the bond is to create a trust (upon re-deposit) which will be used as a vessel to transmit public debt, entice the Estate to act publicly as surety for your portion of the public debt, and transmit funds to the English Crown trust (Bank of England - Rothschild's).

**XIII OPENING AN ACCOUNT; SOCIAL SECURITY** Following the Uniform Securitization Scam blueprint, Treasury authorizes the opening of an account to receive the Social Security bond for the customary purpose of leveraging securities.

## **XIV**

## **REDUCING**

**STATUS TO A NUMBER; SSN** Unlike the birth account maintained by the County and the Secretary of the Treasury, the SS account is assigned a new name and number e.g.: JOHN HENRY DOE, SSN 123-45-6789 for the purpose of identifying various derivative bonds to be issued from the account against your Estate (your pledge).

## **XV RECORDING A GENERAL DEPOSIT; RELINQUISHING TITLE TO THE SS BOND**

As previously described regarding the birth bond, the master Social Security bond is deposited generally into the SS account.

## **XVI**

**CREATING A TRUST; SOCIAL SECURITY TRUST** As with any transfer of property, the deposit of the SS bond creates a trust relationship. Over the years, the SS trust, JOHN HENRY DOE, ID # 123-45-6789, the purpose of the trust is worth repeating: The SS trust will be used as a vessel to transmit public debt, entice the Estate to act publicly as surety for your portion of the public debt, and transmit funds to the English Crown trust. The SS trust is a manifestation of debt. It is debt, and nothing more. Internalizing that understanding is helpful to returning control from public officials to the rightful beneficiary that issued the pledge. The trust directives (the terms of the trust) are all the rules and regulations compiled in United States Code and the Code of Federal Regulations. And guess who is obligated to obey them?...

## **XVII**

**PRESUMPTIONS** The Social Security trust is the vehicle used by public officials to plunder the Estate. Upon deposit of the Social Security bond, the Department of the Treasury through the Internal Revenue Service is the trustee of record. But the government bank would rather be the beneficiary. In order to presume that the United States is the beneficiary, Treasury presumes that the LEGAL PERSON account is also a trustee of the SS trust with the obligation to perform all of the trustee's duties under the public trust. After you accept offers to operate as the trustee on three occasions, the presumption is fulfilled. From then on, the LEGAL PERSON will be treated as a vehicle for transmitting public debt assessments to the Estate by "charging" the LEGAL PERSON for the liability. The stranglehold of the Uniform Securitization Scheme on our lives is BROKEN when we reverse the process and use the SS trust to transmit funds from the Estate to the assessing party upon our express authorization. The name of this process is "setoff."

**THE UNIFORM IN UNIFORM** Every public transaction mimics the Uniform Securitization Scam. During the \$750B bailout of 2008, Treasury issued \$750B in bonds, the Fed issued \$750B of U.S. money, and the bonds were exchanged for the funds and then deposited with DTC following the USS model. When a prosecutor lodges an indictment with a Court, the Court opens an account, the indictment or information is deposited generally, and an arrest warrant is issued against the indictment which is presumed to be backed by the pledge as manifested in the Estate. When an attorney lodges a complaint with a Court, the Court opens an account, the complaint is deposited generally, and a summons is issued against the indictment which is presumed to be backed by the pledge as manifested in the Estate. When you make a withdrawal from a bank, the bank endorses your draft "PAY TO THE ORDER OF" thereby creating a new security which it posts in its books and exchanges for Federal Reserve Notes, securities of equivalent value. When you issue a mortgage (promissory) note, the bank opens an account, deposits the note generally thereby taking title to the funds, posts it as an asset and offsetting liability at the full value of the note to the bank (which includes the value of all future interest), and issues a bank check to the seller in the lower face value of the note (uneven exchange), thereby leaving a balance owed to the maker which usually goes unclaimed. The purchase of groceries is also a well-disguised exchange of securities, Federal Reserve Notes, a bank draft or a credit card invoice (security futures) for a cash receipt. In the present economic system of credit swaps, the theft of the groceries without providing equal value is ignored. "It's the securities, stupid." All of

these transactions are examples of how the USS manifests in our lives.

## THE COURT REGISTRY INVESTMENT SYSTEM

**The Following Tenth Judicial Circuit Court Case/Draft/Account Numbers:** 53-2011-CF-002154-A0; 53-2011-CF-002238-A0; 2011MM-005195-BA; 53-2011-CF-005734; 53-2011-MM-006472-BA and every single case number in every court across this country is a co conspirator to this sinister crime in perpetuity. Federal and State Judges are signing standing orders to invest all court cases through the Court Registry Investment System, directly deposited into the Federal Reserve Bank located in Dallas/Houston Texas and administered through the Administrative Office of the United States Courts. See Link for new rules: <http://www.dcd.uscourts.gov/dcd/sites/dcd/files/courtRegistry.pdf> also, see Federal Reserve Circular 7, Link: <http://www.frbdiscountwindow.org/FRcollguidelines.pdf>

Every court case is assigned by the court administrator, a U.S. Treasury Public Debt Number, placed onto the court document including, but not limited to, traffic citations, misdemeanors, felony's etc. The unknowing participants in the case receive a copy of the same, but without the added monetary transformation. The instrument is then converted into a financial transaction, which is the definition of securitization.

After the Public Debt Number is obtained, the instrument is now converted into a counterfeit obligation pursuant to USC Title 18 § 472 et seq. 473, 474. Next the Court Administrator, additionally counterfeits the same obligation by adding a CUSIP© number. CUSIP© is the acronym for Committee on Uniform Securities Identification Procedures. It is a copyrighted, registered trademark of the American Bankers Association. This could mean only one of two things. Firstly, the Court Administrators are knowingly committing copyright infringement violations in addition to uttering counterfeit obligations, and/or Secondly, that the Court Administrator must obviously be a member of the CUSIP©.

Now the courts have fraudulently converted every court case into a banking financial securities instrument. The end result is that the court has fraudulently been converted into the "creditor" position and the defendant has been fraudulently converted into that of debtor position. To make matters even worse for the judges, they are knowingly acting with a vested interest with insider knowledge contributing to insider trading in addition to violations of Judicial Canons.

Further, judges are to act without bias, in order to make rulings on the "merits" of the case. Now though, the judge knowing the exact meaning of every number/letter applied to, and now written on the face of the instrument in the form of a CUSIP©, they are now ruling based on futures rather than the rule of law, evidence, or oral / written argument.

Additionally, the courts are also committing tax fraud by shifting the debt created by every particular case back onto the individual who is the "ACTUAL CREDITOR", then fraudulently conveying the case into an investment instrument to be deposited into the Dallas/Houston Texas Federal Reserve (see link above for new rules) which now shifts money from the Creditor side of the transaction into the pockets of the Debtors side. Now the funds have been deceptively laundered as a fraudulent debt into corporate assets, converted again into bonds, stocks, and grants then given back to the county deceptively through the Department of Transportation, or some other agency, now squeaky clean after the laundering process. (Please refer to "Debenture," "Convertible Debenture" and all other definitions to terms listed above).

The U.S., United States, as defined in 28 USC 3002(15), is bankrupt on the authority of Perry v. United States, 294 U.S. 330-381; 79L. Ed. 9121, and is an "obligor/grantor" to the Federal Reserve Bank, created by the authority of the Federal Reserve Act of 1913, 38 Stat. 265, Chapter 6.

The Federal Reserve Act of 1913 mentioned above, was an act of Private Law, not Public Law, nor Public Policy. In Lewis v. United States, 608F 2d 1239 (1982), John L. Lewis was injured by a Federal Reserve vehicle and sued the U.S. Government for damages. The court ruled,..... "that since the Federal Reserve System and its twelve member banks, are private corporations, the federal government could not be held responsible."

"Inasmuch as every government is an artificial person, an abstraction, and a creature of the mind only, **a government can interface only with other artificial persons.** The imaginary, having neither actuality nor substance, is foreclosed from creating and attaining parity with the tangible. The legal manifestation of this is that no government, as well as any law, agency, aspect, court, etc. can concern itself with anything other than corporate, artificial persons and the contracts between them." S.C.R. 1795, Penhallow v. Doane's Administraters (3 U.S. 54; 1 L.Ed. 57; 3 Dall. 54), Supreme Court of the

United States 1795 [-Not the "United States Supreme Court" -ed.][Emphasis added]

“All codes [Chapter 83, Part II as alleged], rules and regulations are for government authorities only, not living, human/Creators in accordance with God’s laws. All codes, rules and regulations are unconstitutional and lacking due process.” Rodrigues v. Ray Donovan (U.S. Department of Labor), 769 F. 2d 1344, 1348 (1985). [Emphasis added.]

Any false representation of material facts made with knowledge of falsity and with intent that it shall be acted upon by another in entering into contract, and which is so acted upon, constitutes “fraud,” and entitles the party deceived to avoid contracts or recover damages.” Barnsdall Refining Corp. v. Birnamwood Oil Co., 92 F 2d. 817.

“The terms ‘lawful money’ and ‘lawful money of the United States’ shall be construed to mean gold or silver coin of the “United States” 12 USC 152 also, Boric v. Trott, Pa. 5 Phila. 366, 404; Klauber v. Biggerstaff, 47 Wis. 551 (1879); Lawry v. McGhee, 16 Tenn. 242 (1835) “Money” does not include treasury notes.” Foquet v. Headley, 3 Conn. 534, 536

“Federal Reserve Notes are not dollars.” U.S. Treasury, General Counsel, Munk. “Both notes and checks are acknowledgements of indebtedness [not Credit] and promise of payment.” Hegeman v. Moon, 131 N.Y. 462, 30 N.E. 487 Smith v. Treuhart, et al., 223 N.Y.S. 481.

“As the use of private corporate commercial paper [Federal Reserve Notes], debt currency or securities [checks] is concerned, removes the sovereignty status of the government of “We the People” and reduces it to an entity rather than a government in the area of finance and commerce as a corporation or “person”.... Governments descend to the level of a mere corporation and take on the characteristics of a mere private citizen. This entity cannot compel performance upon its corporate statute or rules unless it, like any other corporation or person is the holder-in-due course of some contract or commercial agreement between it and the and the one upon whom the payment are made and are willing to produce said documents and place the same evidence before trying to enforce its demands called statutes. For purposes of suit, such corporations and individuals are regarded as entities entirely separate from government.” Clearfield Trust Co. v. United States, 318 U.S. 363-371.

“When governments enter the world of commerce, they are subject to the same burdens as any private firm or corporation” United States v. Burr, 309 U.S. 242 See: U.S.C.A. 286 et seq., C.R.S. 11-60-103. “Under a statute defining a negotiable note as a note made by one person whereby he promises to pay money to another person, and providing that the word ‘person’ should be construed to extend to every corporation capable by law of making contracts. It was held that the word included a state.” State of Indiana v. Woram, 6 Hill (N.Y.) 33, 38, 40 Am. Dec. 378. A state is a person within the meaning of a statute punishing the false making, or fraudulent alteration of a public record with the intent that any person may be defrauded. Martin v. State, 24 Tex. 61, 68.

“An unconstitutional act is not law; it confers no rights; it imposes no duties; affords no protection; it creates no office; it is in legal contemplation, as inoperative as though it had never been passed.” Norton v. Shelby County, 118 U.S. 425 [Emphasis added.] “No state legislator or executive or judicial officer can war against the constitution without violating his undertaking to support it.” Cooper v. Aaron, 358 U.S. 1, 78 S. Ct. 1401 (1958) [Emphasis added.]

## IN SUMMARY

These Commercial, Administrative Court’s and their agents, have a financial interest in every Case on the docket. Every claim brought by the State Attorney’s Office is a liability that must be bonded. Every statute violation is a bond and debt obligation that must have a surety to transfer the liability to. Every Defendant such as “JOHN HENRY DOE” is a separate “LEGAL PERSON”, and represents an Estate/Trust and NOT the living Man or Woman.

The unsuspecting Man or Woman inadvertently gives their CONSENT when they choose to be “represented” by an Attorney (not to be confused with assistance of counsel pursuant to the Sixth Amendment) and they subsequently become entangled in the tentacles known as the criminal justice system. On February 28, 2003, Federal District Court Judge Edith Jones, was quoted as saying “The criminal justice system in this country is corrupt beyond recognition” (see link below). [http://www.massnews.com/2003\\_Editions/3\\_March/030703\\_mn\\_american\\_legal\\_system\\_corrupt.shtm](http://www.massnews.com/2003_Editions/3_March/030703_mn_american_legal_system_corrupt.shtm) Additionally, the former Chief Justice of the United States Supreme Court, Charles T. Rehnquist was quoted as saying, “100% of the prisoners in America’s State or Federal penitentiaries are there voluntarily”. Obviously, there is more to the criminal justice system than meets the eye.

All crimes are “commercial” in nature including the use of, and/or possession of, marijuana pursuant to the Code of Federal Regulations (CFR) 27 Section 72.11. The “LEGAL PERSON” is considered to be operating in commerce and the living Man or Woman, is presumed to be the surety and a fiduciary trustee of the ALL CAPITAL NAME trust when in reality, they are the beneficiaries of said Trusts. There can only be one type of action in these commercial, administrative tribunals, CIVIL!

Each and every trial, or negotiated plea, is nothing more than a financial transaction based on a constructive or implied trust, where a judgment issued upon sentencing, relieves the State Attorney/District Attorney of the liability on the debt obligation/claim they created. Meanwhile, the unsuspecting “surety” is warehoused in a jail or prison or placed on probation so that the States claim can continue to be drawn against the treasury trust account(s) which furthers the defalcation. This constitutes involuntary servitude and is a violation of the Thirteenth Amendment. Apparently, debtors prisons are alive and well here in the land of the free!

All Court Case Information is monetized, bonded, and securitized, and deposited into the Court Registry Investment System (CRIS) wherein Government Securities/Treasury Notes are purchased. The prosecuting and/or defense attorneys are leading the sheep to slaughter, whether they are cognoscente of the role they play or not. The whole criminal justice process from charge, to sentencing, is based upon rules and procedure, and is totally devoid of law, and merely gives any and all unschooled onlookers the illusion that justice is being served.

We, as a living Man and Woman are being held hostage as unwilling participants within the criminal injustice system due to coercion, deceit, misrepresentation, duress, and fear of being harmed and/or imprisoned for failure to appear at one of the many procedural hearings. We are nothing more than chattel for a debt obligation that we ourselves did not create. He, who brings the claim, must also bring the remedy!

I am moved by these unique words: *“love your enemies, bless those that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you, blessed are they who are persecuted for righteousness sake: for theirs is the kingdom of heaven.”* Our Savior, the Lord Jesus Christ, died on the cross and paid all of our debts so WE would not have that cross to bear.

On, and for the record; **THERE IS NO CONSENT!**

As affirmation, I affirm that in accordance with the best of Affiant’s firsthand knowledge and conviction the foregoing is true, correct, and not intended to be misleading.

The same under asservation, dated this 9<sup>th</sup> day of October, 2012
