

Deed of Land Recording "Baby Deed"	Purpose	Benefit to You	What to do with it?
	<p>To record the actual birth of your son/daughter---</p> <p>Record, never register.</p> <p>To prevent the newborn or child from being a 'ward' of the state as is customary through birth "registration".</p> <p>To preserve the claim of your child on the land and soil of the county and state he/she was born.</p> <p>This can be done before the baby is even born <u>or</u> when your child is still of minority age, less than 21, in Common Law.</p>	<p>Your child will be a sovereign, non-citizen, private American "vessel" with all the rights along with you.</p> <p>You become the attorney-in-fact for your child with full liability& responsibility including choices such as vaccination, schooling, etc.</p> <p>Consider recording a Cancellation of prior Power of Attorney, if your son/daughter was <i>registered</i> in any way; the Birth Certificate would be evidence of that - it's a receipt.</p>	<p>Record in Land Recording Office.</p> <p>***Connect the document with your own <u>Deed of Re-conveyance recording number.</u></p>

The Baby Deed is a way to establish that private American "vessel" Trade Name that may now conduct international trade and such after age of majority (21). Until then, a living natural biological Father or Mother records it.

Fill out the document and have it recorded ahead of time for bringing to the hospital.

Recording may be done before the baby is born so that you have document in hand to present to the hospital. Bring the document so that when the hospital staff pushes the Application for Certificate of Live Birth Registration, you have evidence that you have taken care of it (in your own way).

NEVER let your baby out of your sight!

You are the "attorney-in-fact" for your son/daughter: **The Ultimate Authority!**

There will be NO footprint, NO eye ointment, NO medication or vaccine, NO pricking of the foot, NO blood work, NO test without your written authorization after obtaining **Full Disclosure.**

Check the bracelet put on the baby - ALL CAPS NAME. **Object to it** as the state begins to make claims (\$) using your baby's UPPER CASE NAME. There is also NO "First" "Middle" "Last" names. It is "given name" and "surname". PERIOD!

Bring the *afterbirth/placenta* home and bury it on your land. Do NOT let the hospital (state) claim it as a lost ship at sea and use that NAME as a Vessel they plug into their computer system to make claims (\$).
